STINGING WORDS OF DR. BRUNER

Accuses Governor of Personal Malice

IN VETOING THE BANK BILL

Scathing Arraignment of Chief Executive by Secretary of State.

Frankfort, Ky., March 26.—In a stinging indictment of Gov. Willson's action in vetoing the bank examiner's bill, Secretary of State Ben L. Bruner to-night gave out a 3,000 word statement, which calls a spade a spade.

He does not hesitate to accuse the Governor of using his veto power, to further personal malice, and claims that in turning down this bill the Governor acted with the advice of a few men against the wishes of hundreds of State bankers.

Dr. Bruner scathingly arraigns the Governor for alleged failure to consult with party leaders over the course to be pursued with respect to this bill, which if enacted into law, would have given the appointment of six bank examiners to the Secretary of State, under the supervision of the Court of Appeals.

On the face of this statement it is not only a personal thrust at the Governor, but it is taken as an attempt by a leading Republican to repudiate the action of the Governor in vetoing the banking bill, and thus as an effort to anticipate and to forestall any chance that the Democrats might make campaign material out of the veto of this bill.

Friction on the administration square has been apparent for a long time, but it has developed into intensity following the implied charge, in the Governor's veto of the bank bill, that it would enable Dr. Bruner to build up a political machine. Dr. Bruner now has come back with a defiance of the Governor, in which there is a blend of verbal vitriol and rhetorical capscum calculated to set the grass on Capitol Hill on fire.

Our Soldier Boys.

The semi-annual inspection of Company H, K. S. G., occurred in Hartford last Monday. Thirty-nine men and officers were present. Lieut. Cols. Thos. W. Woodyard and A. McLean Moffat, of Frankfort, were present, according to appointment. Capt. J. M. DeWeese, of Owensboro, was also on hand. This was a preliminary inspection prior to the regular Government inspection, which will occur the 20th of April next and which will prepare our boys for entrance into the regular army. The visiting officers were very much pleased with the appearance, drill work and deportment of our boys. They said our boys observed military courtesies with more precision and heartiness than any company in the State. This is a record of which our citizens as well as our soldiery feel proud.

During the presence here of Lieut. Cols. Woodyard and Moffat, Capt. DeWeese and Lieut. Woodward were examined for commissions, in which they will no doubt pass with flying colors.

A target range will be provided here at an early date, and Company H kept up to its high point of efficiency.

Wormology

Should be studied by every parent. If your child is nervous, fretful, starts rings under its eyes, always seems hungry, is not gaining weight, you can be sure the trouble is worms. White's Cream Vermifuge is an absolute cure for worms. Is its own purgative. Sold by Hartford Drug Co.

Kicking Over Negro Supervisor.

Henderson, Ky., March 28.—A great deal of indignation has been aroused in Corydon over the appointment of W. S. Miller, colored, as a census enumerator. An examination was held in this city several weeks ago and several took the examination for the position. The appointment was made a few days ago, and when the citizens learned that Miller had been appointed they became indignant.

A mass meeting of the citizens of Corydon was held Friday night in the council chamber of that city and a petition signed by over 100 citizens will be sent to A. H. Anderson at

Hopkinsville, Ky., who is the census supervisor of the Second Congressional district.

All efforts possible will be used by a majority of the citizens to induce the supervisor to annul the appointment of Miller and appoint in his stead some white person.

Gen. Murray Goes to Indiana.

Last week Gen. David R. Murray opened his law office in Indianapolis in partnership with Mr. Reuben Miller, a former Kentuckian. The bar of Breckenridge county passed resolutions of regret on the departure of Gen. Murray, and these express the sentiments of all his home people and friends throughout the State.

Gen. Murray was born and reared in Cloverport, but in the last ten years he has been living in Hardinsburg, the county seat of Breckenridge.

APPROPRIATIONS

Sliced Down by Governor—Allows Nearly Half a Million to be Paid.

A total of \$463,370 of the appropriations made by the General Assembly at its recent session, will be paid by the State. Gov. Willson approved, or allowed to become a law, bills appropriating that much money. Of this he allowed to become a law without his signature a total of \$274,792.57. Adding this amount of appropriations allowed to the deficit of \$1,123,660, which already exists, leaves, the Governor says, a deficit of \$1,497,070.39. The appropriations made and allowed by the Governor would require an increase in the tax rate of 6 cents if the amount is paid. He says some of this can be made up by reducing expenses.

The Governor killed the bill appropriating \$22,500 to each of the normal schools and \$30,000 to the State University, and the bill allowing \$38,000 to the State Fair. He also vetoed the bill appropriating \$16,000 for a tuberculosis sanitarium. He vetoed a part of the appropriation for the School for the Deaf, at Danville, allowing that school about \$10,000. The bill for the School for the Blind was disapproved in part, the total allowed that school being \$17,000, when the bill provided for \$40,000.

Race Suicide

Is not nearly the menace to increase in population that deaths among infants are. Eight out of ten of these deaths are directly or indirectly caused by bowel troubles. Brasher Sells Hillside Mine.

John B. Brasher, of Madisonville, has sold his Hillside, Muhlenberg county, coal mine to Birmingham, Ala., capitalists for \$105,000. Extensive improvements are to be made by the purchasers. The sale of this property may be of vast benefit to the miners of District 23.

For Sale or Rent

The well known Sulphur Springs property, consisting of the Hotel and Springs, including 23 acres of land, is for sale or rent. This well known summer resort is only a ten-minute drive from Dundee, a station on the M. H. & E. R. R., with a splendid road. The water has shown as fine a test as any Sulphur water in Kentucky and with a little improvement on the grounds, it would be one of the most desirable summer resorts in Western Kentucky. WHERE TO LOOK FOR THE COMET

Is Now Visible to the Naked Eye.

NO DANGER FROM ITS VISIT

Position Low Down in Southern Heavens—At Its Zenith on May 18th.

Halley's comet is now approaching rapidly, according to Washington scientists, and with favorable meteorological conditions can be seen with the naked eye. It will be visible all through April and will be at its brightest in May, attaining its maximum brilliancy on May 18.

Those who desire to have a look at the comet may do so by taking up a position, directly it becomes dark, facing due south. Find out Sirius, the "dog star," low down on the horizon on your left-hand side. Take a perpendicular line from this till you come to the constellation of Gemini, or "The Twins," one above the other. Midway between these the comet passed in October last, going to the right, on through the constellation of Taurus, to the two planets Mars and Saturn, both high up in the southwest. Planets do not twinkle, and, moreover, Mars is possessed of a distinct reddish tinge.

The comet's path lay between these two last month, and the comet itself will be found some little distance to the right. An easier way probably to find Mars and Saturn will be to take a line to the right from the top star of the Gemini, at an angle of about fifteen degrees, till you come to five little stars, all clustered together. These are the Pleiades. Continue the line at an equal distance and you will find the planets in question. The above position of the stars refers to the time directly it becomes quite dark. If viewed, say, two hours later, all the stars will have moved to the right and Mars and Saturn will be found sinking in the West.

There need be no worry as to possibilities of asphyxiation should the tail sweep the earth. It has happened several times before with other comets, but no one was the wiser till after the occurrence. It must be borne in mind that all gases, no matter what their respective weights may be, have the power of diffusion, or of mixing up with one another, and when one thinks of the immense distance the tail has to traverse before reaching us it will readily be understood that any gases composing it will be so attenuated as to be utterly imperceptible.

It will be perfectly safe to say, however, that there is no likelihood whatever of even the fag-end of the tail reaching the earth's surface. There are no authentic records with regard to Halley's comet of its ever having done so, and since its last two appearances tended to show that its tail was diminishing, so much the more remote will be the chance of its reaching us this time.

BURLEY GROWERS

Of Daviess County Decide to Form Organization For Pooling and Selling.

At a call meeting of the growers of burley tobacco, held at 11 o'clock Saturday morning at the court house in Owensboro, plans were made looking to an organization to be known as the Daviess County Burley Growers association for the purpose of pooling and selling burley tobacco grown in Daviess county.

There was a good attendance of interested farmers and the meeting was called to order by Hiram Marksberry, chairman of the 1910 meeting. J. M. Hay was elected chairman of the meeting and George M. Taylor secretary.

The temporary officers follow: Hiram Marksberry, president; G. A. Jett, vice president; George Taylor, secretary. The executive committee is composed of John Trunnell, E. L. Miles, J. M. Hay, Oscar Nuckols, J. L. Hawes and Lewis Gertisen.

Good Show Coming April 7.

Dr. Bean has made arrangements to have a good show at his opera house here on Thursday evening, April 7. It is one of the best on the road and recommended by press and public to be first-class in every respect. C. F. Daum, the noted theatrical manager, will present the young talented scabrette, Daisy Hazelton, in "A Wyoming Girl," supported by a company of sterling actors and actresses. The cast includes ten people, each an artist.

The play will be produced with new scenic effects, grand electrical displays, new and novel stage mechanism, beautiful and appropriate music. High class vaudeville specialties between acts will be a feature—no lonesome waits between acts. The play is a story of the Golden West, abounding in tragic scenes and thrilling situations. It is a play that rarely comes to a town the size of Hartford, but on account of having an open date, they will play one night here. The admission prices will be 20c, 35c and 50c.

For Consumption.

Mr. L. H. Farnham, a prominent druggist of Spirit Lake, Iowa says: "Chamberlain's Stomach and Liver Tablets are certainly the best thing on the market for constipation." Give these tablets a trial. You are certain to find them agreeable and pleasant in effect. Price 25 cents. Samples free. For sale by all dealers, 1315

Fire at Morganfield.

Fire which broke out at 12:10 o'clock Friday morning threatened the business section of Morganfield, Ky., and caused a loss of \$200,000.

The following property was destroyed by the flames:

Green River department store.

Mason and Dyer's department store.

Wall and Young's department store.

Union County Bank.

Baptist church and parsonage.

Morganfield steam laundry.

Morganfield opera house.

Five residences.

The fire started in the Green River department store from an unknown cause. It quickly spread to Wall and Young's department store on one side and Mason and Dyer's department store on the other. For a time it looked as if the town was doomed.

Very little insurance was carried on any of the property.

After a month's discussion the Chicago city council passed by a vote of 68 to 2 an ordinance prohibiting the use of hat pins protruding more than half an inch. Many women were in the galleries and hissed and jeered in protest. The penalty is a fine of \$50.

THOUSANDS ARE NOW HOMELESS

New Eruption of Mt. Etna the Cause.

MANY VILLAGES WERE BURIED

People Fled From Flowing Streams of Hot Lava—Farms Covered.

Catania, Sicily, March 26.—Thousands of people are rendered homeless by the new eruption of Mt. Etna, which bids fair to be the most destructive of modern times. The people are all fleeing toward this city. The scene rivals that of fifteen months ago, when this city became the refuge of many of Messina's inhabitants after the earthquake shock.

The eruption increases in violence. Six new craters have opened in the sides of the mountain, and streams of lava fifty feet deep and a half mile wide, swept down the mountain slopes at a rate of a mile an hour.

It has already covered nine miles and has either destroyed in part or in whole the villages of Borello, Bel-tasso, and three others. Noccolosi, one of the principal towns, escaped the destruction through the fact that it was shut in by the hills. The lava, however, surrounds the hills and most of the inhabitants have fled.

Eighteen craters are pouring out their columns of sulphurous vapors, stones, cinders and lava. The farms have been destroyed and the entire section impoverished.

Government engineers tried in vain to divert the course of the lava streams by building dams, but they swept the dams away.

Many of the earthquake survivors tried to check the lava by their prayers of Messina are living here, and they tried check the lava by their prayers, and by placing images at the bottom of the foot hills, but had to flee for their lives.

OLATON.

Minority Members Chosen.

The Democratic House caucus last week selected the four minority members of the Committee on Rules under the terms of the Norris resolution

forced upon the House organization by the combined Democratic-Insurgent vote.

Those chosen were: Champ Clark, of Missouri. Oscar Underwood, of Alabama. Lincoln Dixon, of Indiana. John J. Fitzgerald, of New York.

It had been conceded for several days that these four men would be selected, and the caucus merely ratified the choice of four-fifths of the Democrats.

To Messrs. Clark, Underwood and Dixon there was practically no opposition. The action of Representative Fitzgerald in joining in with the Cannon forces last winter had embittered some of the Democrats against him, but it was agreed by the leaders that it would make for better harmony in the party to retain Mr. Fitzgerald on the Rules Committee, and this view was accepted. Mr. Fitzgerald polling the entire Clark-Underwood-Dixon strength.

JUDGMENT FOR PLAINTIFFS.

Not Willing that the Golden Sunlight of Truth Should Shine on Contract.

Judgment for plaintiff for \$144 was rendered by Judge T. F. Birkhead last week in the suit of J. H. Williams and B. S. Chamberlain vs. C. D. Lorthorp. The petition in this case sought to recover of defendant the sum of \$144, this being the amount that plaintiff paid to defendant, as a balance due from the right to sell window sash locks in the county of Crittenden, Ky. The opinion of the Court in rendering the above judgment was a "salty" arraignment of the methods of the defendant in consummating the sales which were made in Hartford about two years ago. Among other things the Court says:

"When the evidence in this case is considered in connection with the price that plaintiffs agreed to pay for the right to sell this window sash lock (the price being \$288.00 that the plaintiffs paid) one year in Crittenden county, and the joint right to sell in a few other counties, it leaves the impression on this Court's mind that the defendant was not willing that the golden sunlight of truth should shine on this contract, and that the defendant was dealing with plaintiffs at arm's length. On the contrary it appeared in the evidence that some of the parties who were induced to make similar contracts to the one made by the plaintiffs here were enjoined to keep the matter secret for a few days. The whole purpose seemed to be to make as many sales of the sash locks under similar contracts to that made to the plaintiffs as they possibly could within a certain length of time and then to move out of the county. This Court's mind is fully satisfied that there was deceit and fraud practiced on the plaintiffs by the defendant; that it was deliberate, and after due consultation among the parties concerned with it, and the value of the sash lock for the purpose for which it was sold, was insignificant, comparatively nothing."

The Insurgents.

A roster of the insurgent Republicans who voted with the Democrats on the Norris resolution aimed at Speaker Cannon may be of interest to our readers. It is:

Wisconsin—Nelson, Kopp, Sarvey, Cooper, Davidson, Lenroot and Morse. Minnesota—Davis, Lindberge, Miller, Steenerson and Volstead. Iowa—Kendall, Hubbard, Hood, Haughn, Picketts and Wood. Nebraska—Henshaw, Kincaid and Norris.

Kansas—Madison and Murdock. Ohio—Howland, Johnson and Taylor.

Massachusetts—Ames and Gardner. New York—Fielker and Fish. Washington—Polindexter. South Dakota—Martin. North Dakota—Gronna. New Jersey—Fowler. California—Hayes.
